Meath Local Community Development Committee

Section A Chief Officers Report

Local Community Development Committees (LCDC's) are required under Part 6 of the Local Government Reform Act 2014 (S128B of the Local Government Act 2001) to prepare, adopt and submit an annual report to the Local Authority in respect of the performance of its functions in the previous year.

This report outlines progress in respect of the various Meath LCDC functions during the year 2025.

Membership of Meath Local Community Development Committee (Meath LCDC)

LCDC Membership at 01/01/2025	**Representing**	**LCDC Membership at 31/12/2025**

Brian Hora,

Chief Office, Meath Local Community Development Committee,

Section B Chairpersons Report

1. Introduction

As Chairperson of the Meath Local Community Development Committee (LCDC), I am delighted to present to you a detailed account of the activities of Meath LCDC in 2025. I want to thank my follow committee members, for their continued support to the Meath LCDC. I want to express by gratitude to the former members of the committee Ms. Aileen Brady Social Inclusion Pillar, Ms. Sharon Curran Dept of Employment Affairs & Social Protection and Mr. Joe English Local Enterprise Office.
It was also a pleasure to welcome new committee members Marie Brennan (Social Inclusion Sector) and Mr. Michael Gunn (Environment Pillar) to the committee during 2025.
I also want to extend my appreciation to the Chief Executive Officer of Meath Partnership Mr. Colin Ludlow and his colleagues for their professionalism and dedication as implementing partners for both the Social Inclusion Community Activation Programme 2024-2028 (SICAP) and LEADER 2023-2027 Programme.
Finally, I want to thank Mr. Brian Hora, Meath LCDC Chief Officer, Ms. Valerie McHugh, Ms. Aishling O'Donnell, Ms. Angie Mitchell, Ms. Anne O'Brien for their continued support to the committee and for their management of the different programmes and funding mechanisms overseen by the LCDC and which are detailed in the remainder of this report.

2. LEADER Programme 2023-2027

The LEADER Programme in County Meath is delivered through the Meath Local Community Development Committee (LCDC), which serves as the county's Local Action Group (LAG) with responsibility for overseeing strategic decision-making and the approval of LEADER investments. This partnership-based governance structure brings together public, private, community and voluntary sector representatives to guide and authorise rural development funding across the county. Delivery of the programme is supported operationally by Meath Partnership, which acts as the Implementing Partner, providing day-to-day administration, project development support, community engagement, and animation of the programme on behalf of the LAG.

LEADER is a cornerstone of rural development in Meath, promoting community-led local development through a bottom-up approach that empowers local groups, enterprises, and stakeholders to identify needs and deliver innovative projects. With a dedicated project budget and a strong focus on social, economic and environmental sustainability, the programme supports capital investment, feasibility studies, training initiatives and enterprise development across key themes including economic development, climate action, rural environment, social inclusion, and digital and community infrastructure. This community-driven model has played a vital role in strengthening the resilience and sustainability of rural Meath. Through targeted funding and technical assistance, LEADER enables communities to harness local strengths, stimulate job creation, enhance amenities, protect natural assets and improve quality of life.

At the end of 2025 from a total Budget €4,094,997, €757,145 (19%) has been allocated to projects with a further €2,632,455(64%) in the pipeline. A total of 20 projects have been approved under the programme on 31st December 2025.

Together, the Meath LCDC/LAG and Meath Partnership ensure that LEADER funding continues to act as a catalyst for local innovation and community-led progress, enabling Meath to remain a dynamic and forward-looking county where rural communities thrive.

LEADER information Session held at Meath County Council's Thrive Centre of Business Excellence

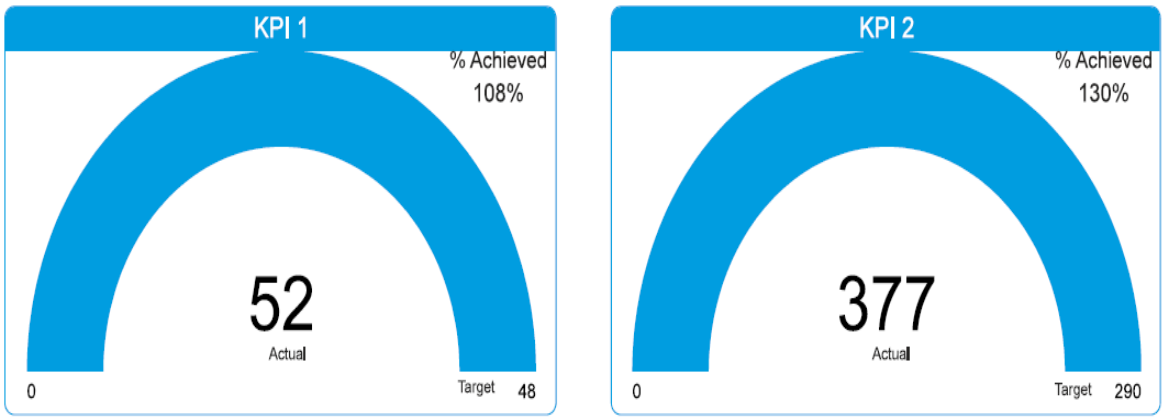
Appendix 1 details project Meath LAG Approved Projects in 2025

3. Social Inclusion Community Activation Programme (SICAP)

The Social Inclusion and Community Activation Programme (SICAP) 2024 – 2028 provides funding to tackle poverty and social exclusion at a local level through local engagement and partnerships between disadvantaged individuals, community organisations and public sector agencies.

The Social Inclusion and Community Activation Programme (SICAP) delivered a strong and impactful programme in County Meath throughout 2025, supporting individuals and communities experiencing the effects of disadvantage. The programme focused on building community capacity, reducing social isolation, and enabling individuals to engage in education, training, and employment pathways. Operating across SICAP's two national goals, the programme exceeded KPI targets in both community-focused and individual-focused strands, demonstrating effective delivery and strong engagement across priority groups. Funding for 2025 was as follows:

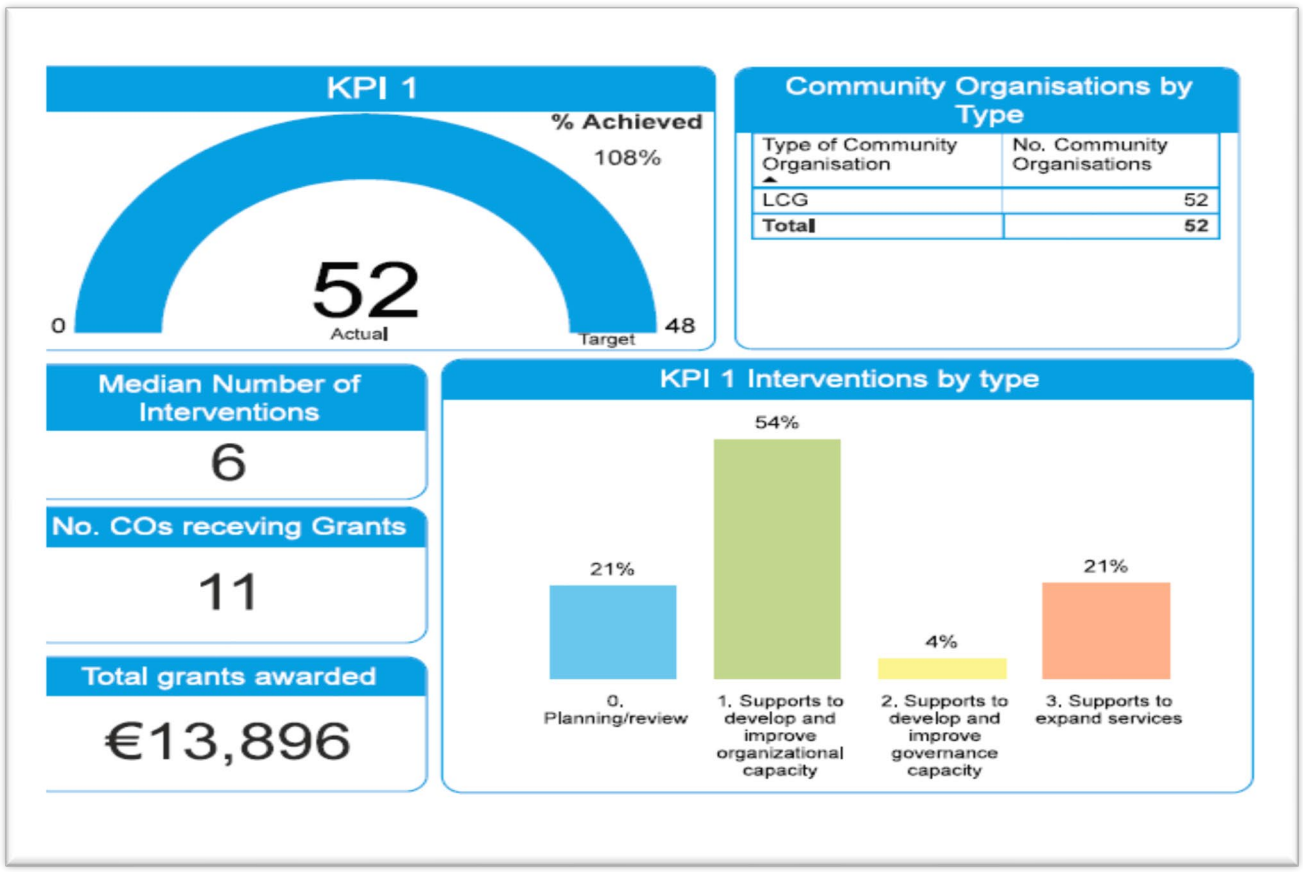
SICAP Budget 2025	**New Arrivals Budget 2025**	**Additional New Arrivals Funding 2025**
€574,340.00	€264,781.00	€30,000



SICAP KPIs 2025

SICAP Goal 1 – Supporting Community Organisations

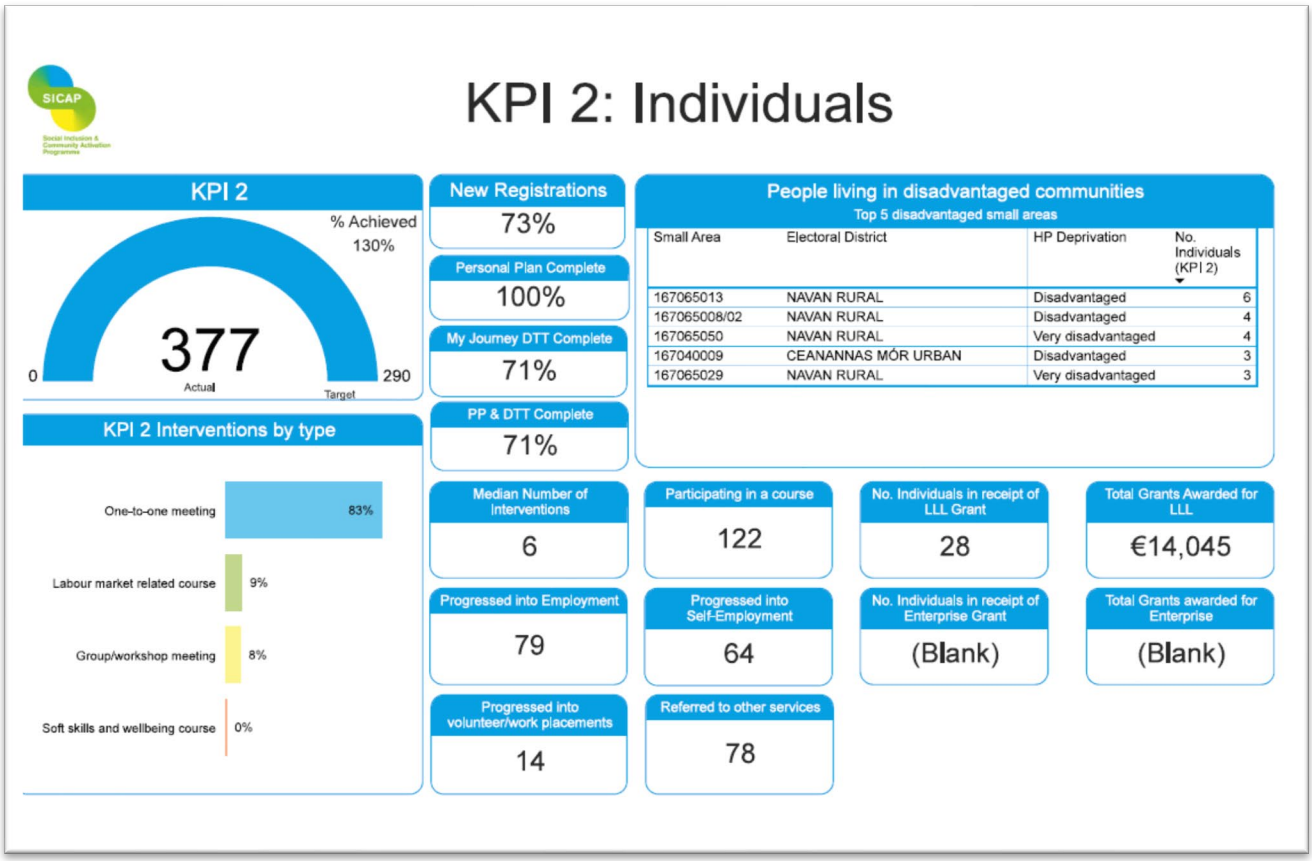
Goal 1 activity centred on empowering local community groups, networks, and social enterprises to address local needs and strengthen community resilience. SICAP supported 52 local community groups, surpassing the annual target of 48. Supported actions included Pobail le Chéile, Teach Mná, Legacy 4 Meath, Resilient Roots, Connecting Cultures, the Meath Befriending Network, and New Arrivals Connect Groups.



KPI 1 2025 Overview

Goal 2 – Supporting Individuals

Goal 2 involved one-to-one and group supports aimed at improving education, employability, wellbeing, and soft skills. SICAP achieved 377 individual interventions, exceeding the target of 290. Key programmes included Youth Progression, Folláine, Cultivating Careers, Cultural Crossroads, and the New Arrivals Response Initiative.



KPI 2 2025 Overview

Programme Highlights (2025)

Community Capacity, Wellbeing & Social Inclusion

SICAP delivered a diverse range of capacity-building and social-inclusion supports during 2025. These included digital, creative and personal development programmes, digital literacy classes for older adults, volunteer and governance training, grant-writing workshops, and practical sustainability-skills sessions such as upcycling and food-waste reduction. Ten community grants supported Men's Sheds, disability groups, community festivals, and local spaces.

Wellbeing-focused initiatives included the Meath Befriending Network, which engaged 26 new clients and 145 participants, alongside health and wellbeing programmes, senior inclusion events attended by 135 people, and winter emergency supports distributed through outreach partners. Integration initiatives supported intercultural understanding, women's community engagement, and targeted activities for unaccompanied minors.

Education, Skills & Employment Progression

SICAP delivered a wide range of accredited and non-accredited training opportunities, including Safe Pass (with Arabic-language delivery), manual-handling certification for young people with disabilities,

barista training, and sector-specific taster courses in areas such as barbering and carpentry. Enterprise supports included three Start Your Own Business courses and employment-preparation workshops.

Targeted progression supports included driver-theory programmes for Traveller youth, vocational and employment-skills training for New Arrivals, WRAP Level 1 resilience training through the National Learning Network, and English language, First Aid and wellbeing supports designed to enhance confidence and readiness for progression.

Engagement with priority target groups was strong during 2025:

- 92% were from jobless or low-income households
- 40% experienced educational disadvantage
- 37% were long-term unemployed
- 26% were people with disabilities
- 35% were International Protection Applicants
- 15% people living in disadvantaged communities

SICAP Case Study 2025

The SICAP 2025 Case Study "Belonging at Every Age" highlighted the targeted actions to reduce isolation and promote social participation among older people, including the Meath Befriending Network, Folláine, Teach Mná, and Pobail le Chéile. These initiatives help older people remain active, safe, and connected in their communities. The case study video and accompanying report illustrated the practical cooperation between service providers in Meath in providing solutions and supports where they are needed most. The 2025 SICAP Case Study was officially launched by Cllr Wayne Harding, Cathaoirleach, Meath County Council

Pictured L-R Colin Ludlow, CEO Meath Partnership; Cllr Wayne Harding, Cathaoirleach Meath County Council; Mr. Seamus Mcgee, Chairperson of Meath Local Community Development Committee and Mr. Barry Lynch Meath County Council, Director of Climate Action, Culture, Community & Gaeltacht Affairs at the launch of the 2025 SICAP Case Study

Overall, SICAP 2025 delivered a high-performing and community-led programme that exceeded its KPI commitments and made a meaningful contribution to reducing disadvantage in County Meath. Strong partnership working, responsive programme design, and a comprehensive range of interventions ensured measurable improvements in community capacity, social inclusion, education, skills development and employment readiness across the county.

4. Local Economic and Community Plan (LECP) 2023-2029

During 2025, Meath County Council and the Meath LCDC continued to progress the implementation structures for the Meath Local Economic & Community Plan (LECP) 2023–2029. While full monitoring and reporting activities will commence in 2026, significant groundwork was completed throughout the year to enable effective implementation and measurement of progress.

A key milestone was the completion of the tender process in 2025 for the development of a cloud-based LECP reporting and monitoring system. This system is designed to support Action Leads and supporting stakeholders in updating progress on High-Level Goals and associated actions of the MEATH LECP. Development work commenced in Q3 and continued through Q4 2025. The platform went live in late Q4, allowing updates by internal departments and external partners. The first full reporting cycle using the system will take place in 2026 to prepare the inaugural LECP Implementation Report.

In parallel with the technical development, the LCDC continued to exercise its oversight role. Throughout 2025, the Committee received a number of presentations and progress updates relevant to the LECP's social and community development objectives, including:

- **Cultur Migrant Centre** – Community Development Programme 2024 year-end report, with specific emphasis on inclusion, migrant participation, and capacity-building outcomes.
- **Navan Schools Completion Programme** – Overview of the *Windtown School Transport Initiative*, highlighting collaborative approaches to educational access and youth support.
- **Deerpark Community Hub** – Presentation on the development of the Hub and its future expansion plans, aligning with community infrastructure and place-based regeneration objectives.
- **Meath Public Participation Network (PPN)** – Regular updates on community engagement, thematic groups, and representation, supporting enhanced participation in local decision-making.
- **Meath County Council Planning Department** – Briefing on the County Development Plan review process and its alignment with the strategic priorities of the LECP, ensuring policy coherence across economic, environmental, and community planning.

Although 2025 was largely focused on establishing the monitoring framework and system architecture, it also served as a foundational period for strengthening partnerships, improving data capture and embedding LECP objectives across relevant programmes and agencies. These preparatory steps have positioned the LCDC and its partners to engage in more active implementation tracking from 2026 onward

5. Heathy Ireland Fund Round 4

The Healthy Meath Programme made significant progress throughout 2025, delivering a wide range of community-centred initiatives that strengthened wellbeing, promoted healthier lifestyles, and

supported key population groups across the county. Guided by the Healthy Ireland Framework and supported through the Healthy Ireland Fund (HIF), 2025 was marked by strong interagency collaboration, increased community engagement, and targeted actions aligned with Meath's local health priorities. The programme demonstrated a strong track record of evidence-informed delivery, reaching a large number of individuals and community groups while maintaining strategic balance across its two core outcome areas: Positive Mental Health and Non-Communicable Disease (NCD) Prevention.

A total of 1,546 participants took part in Healthy Meath initiatives during 2025—473 in Positive Mental Health programmes and 1,073 in NCD-related activities. This broad reach reflects both the diversity of programming and the growing visibility of the Healthy Meath brand across the county. In total, 49 initiatives were delivered during the year. These were supported through a HIF allocation of €75,000 for 2025.

Partnership working remained central to Healthy Meath's achievements in 2025. The programme collaborated closely with Meath Travellers Workshop, Foróige, Meath Local Sports Partnership (MLSP), community pharmacies, Yoga4Health, Irish Heart Foundation, Meath PPN, Meath GAA, Youth Work Ireland Meath, and a range of community organisations and service providers. These partnerships enabled the programme to extend its reach into diverse settings—youth groups, sports clubs, Traveller services, libraries, community centres, and family resource centres—ensuring that initiatives were grounded in local needs and accessible to priority groups.

Under the Positive Mental Health outcome area, the programme continued to build resilience, awareness, and wellbeing capacity across communities. Initiatives delivered in 2025 included youth mental health supports, community wellbeing activities, Traveller mental health projects, sensory-based initiatives for children, Woodlands for Health, social farming placements, and wellbeing workshops that supported families, young people, and vulnerable groups. These initiatives contributed to stronger mental-health literacy, enhanced peer connection, and improved access to supportive activities, and built on the successes of earlier resource development work including CommUnity Connects, which was launched in March 2025. This is a three-part project that includes:

1 The CommUnity Connect Resource - a comprehensive resource offering contact information for local and national supports

2. The CommUnity Connect Network - a collaborative group of organisations focused on promoting mental health and wellbeing within our communities

3. The CommUnity Connect Champion Programme a 2-day training programme delivered in collaboration with the HSE Health Promotion, HSE Suicide Prevention Officer, PPN, and Louth & Meath Volunteer Centres

Launch of CommUnity Connects 5 Ways to Wellbeing

The Non-Communicable Disease (NCD) outcome area also achieved strong results in 2025. Programmes included chronic-disease prevention activities delivered through pharmacies, physical-activity initiatives for adolescents, women, and disadvantaged communities, nutrition and cookery projects, and targeted healthy-lifestyle campaigns. A key development in 2025 was the use of research insights from TUS, which identified gaps in provision for Enfield, women's health programmes, healthy eating supports, and general health-information awareness. These findings informed the design of new and targeted programmes, strengthening the evidence base and responsiveness of Healthy Meath's work.

The Healthy Meath Micro Fund 2025 also demonstrated strong community engagement, with 38 applications received and in total, €66,200 in funding was sought across both outcome areas—23 applications for Healthy Lifestyle initiatives and 15 for Positive Mental Health projects. €16,000 was allocated to support 13 small-scale, high-impact community projects, enabling groups to deliver wellbeing events, physical activity sessions, nutrition programmes, and mental health supports tailored to local needs.

Appendix 2 details the Healthy Meath Micro Fund Projects Approved in 2025

Overall, the Healthy Ireland Programme in Meath made significant progress in 2025, delivering evidence-informed, partnership-driven and community-centred actions that contributed meaningfully to improved health and wellbeing outcomes for individuals, families and communities.

6. Local Enhancement Programme 2025

The Local Enhancement Programme (LEP) 2025 supported 221 community projects across County Meath, with a total approved allocation of €222,736. Drawdown levels were exceptionally strong at €213,773, representing a 96% utilisation rate. Funding supported a broad range of needs, including running costs, sports equipment, building upgrades, machinery, IT equipment, and accessibility improvements. The programme continues to provide critical small-grant support to grassroots community organisations, sports clubs, cultural groups, and voluntary committees across the county.

Meath LCDC is responsible for allocating funding to projects in County Meath. The total allocation for Meath for 2025 was as follows:

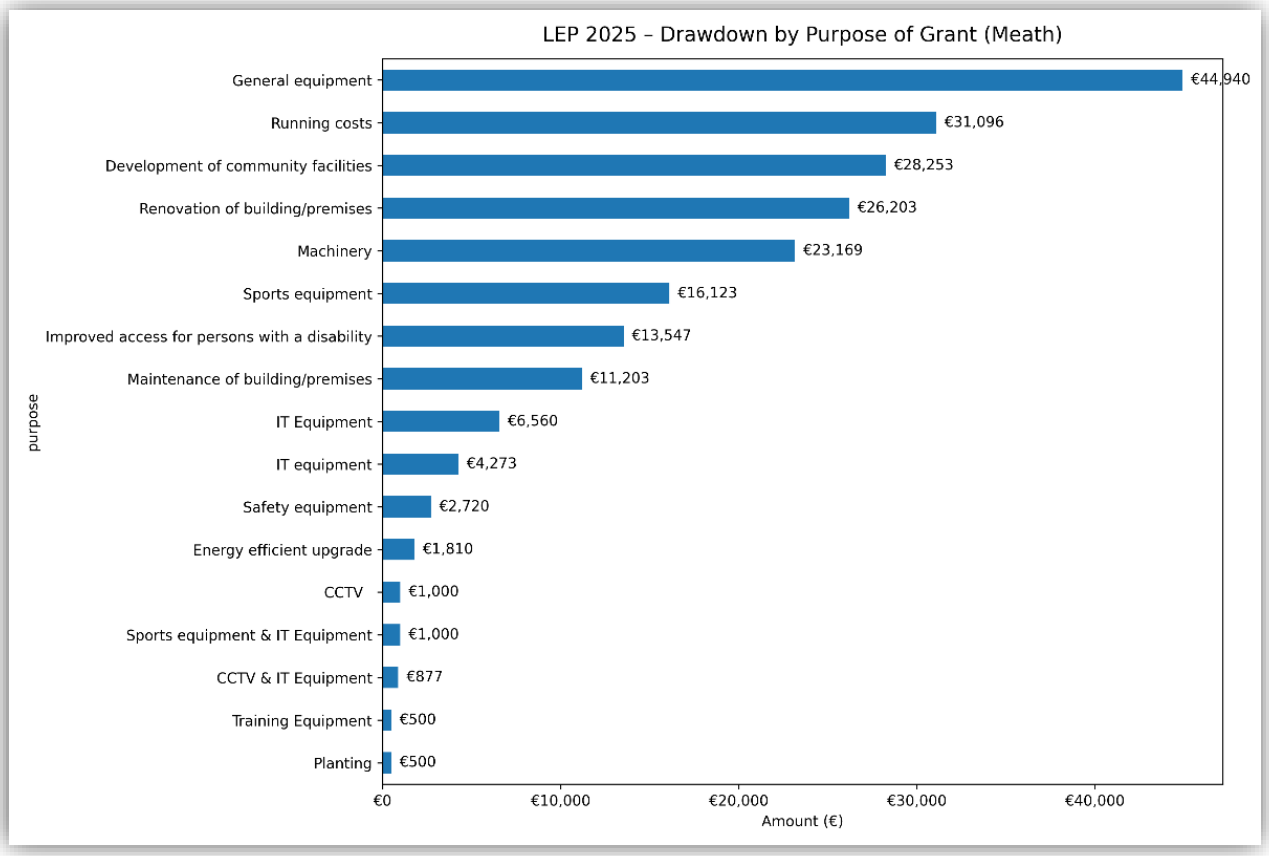
- €190,945 for capital funding for use towards carrying out necessary repairs and improvements to facilities, energy efficiency type projects and purchase of equipment.
- €31,791 for current funding to be used to cover running costs e.g. rental/lease costs, utility bills, insurance costs.

A total of 261 applications were received.

- 160 applications under the LEP capital stream with a total value of €859,769
- 101 applications under the LEP current stream with a total value of €378,141

125 groups were awarded funding under capital projects totaling €190,954 with a further 96 awarded funding under current projects totaling €31,791.

- 66 Groups awarded between €500 and €1,000
- 30 Group awarded between €1,000 and €2,000
- 17 between €2,000 and €3,000
- 4 between €3,000 and €4,000
- 4 between €4,000 and €5,000
- 4 between €5,000 and €6,000



7. Other Programmes and Initiatives

Community Development Pilot Programme (CDP)

The **Cultur CDP**, funded through the Department of Rural and Community Development and the Gaeltacht with an annual allocation of **€125,000**, delivered a comprehensive and community-centred programme across Meath. The programme focused on supporting migrant and ethnic minority communities through structured community development processes, targeted capacity-building, outreach, integration supports, and participatory engagement. A core emphasis of the 2025 workplan was strengthening leadership, building community infrastructure, and supporting the social, economic and civic participation of new communities.

The Migrant Network Community Development Programme (CDP) recorded a strong impact in 2025 and increase in people engaged, engaging 2,822 individuals across Meath and Louth through events, outreach, training, advocacy, and community support. The programme strengthened migrant participation, promoted social inclusion, and enhanced cross-community engagement. Collaboration with local agencies improved coordination and service delivery for migrants, while leadership development and anti-racism initiatives advanced equality. Overall, the CDP made a meaningful contribution to the Local Community Development Committee (LCDC) objectives for inclusive community development.

Overall Engagement and Key Outputs (2025):

- 2,822 individuals engaged across all programme activities
- 8 Cultural & Community Events (including International Mother Tongue Day, International Women's Day, Meath Africa Day, World Refugee Day, Anti-Racism Day, and Migrants' Day)
- 3 Anti-Racism Workshops (NAPAR)
- 11 IPAS Outreach Programmes delivered across centres in Meath and Louth
- 2 Leadership Training Programmes
- 8 Social Justice & Solidarity Campaigns, including anti-racism initiatives and the All-Island Housing Demonstration
- 16 Safe Space Community Sessions/Clinics
- 4 Policy Influence Submissions
- 128 Students Engaged through Cultúr Conversational English (CCE) Classes

Impact Highlights:

- Encouraged greater cross community solidarity and mutual understanding through public events, advocacy campaigns, and the launch of new community groups.
- Strengthened interagency partnerships and local networks, improving coordination, resource sharing, and service delivery for migrants.
- Demonstrated measurable improvements in migrant knowledge, soft skills, confidence, and overall wellbeing.
- Raised local and national awareness on anti-racism, gender rights, and migrant challenges through targeted NAPAR workshops, social campaigns, and advocacy initiatives.

Dormant Accounts Funding LGBTI+

A successful application was made under the 2024 Dormand Accounts Fund to deliver a LGBTI+ Community Wellbeing Programme 2025. The project was delivered through two events. The first was a wellness workshop using drama-based methods, followed by an outdoor orienteering activity. This workshop was developed in consultation with a local youth organisation supporting LGBTI+ young people.

The second event explored mental health, resilience, identity, and the power of community, offering a safe and inclusive space for participants to reflect, recharge, and connect. Facilitated by Paddy Lalor (Irish Independent), Mark Donnelly, David Gough, and Dil Wickremasinghe shared their personal experiences and participated in a Q&A session with an audience in the Solstice Theatre, Navan. The event was opened by Leas Cathaoirleach of Meath County Council Caroline O Reilly.

The Meath LCDC LGBTI+ Wellbeing Initiative has delivered significant benefits by creating safe, affirming spaces and meeting a clear need for localised mental health support. It has strengthened relationships between Meath LCDC, Meath County Council, service providers, and the LGBTI+ community. The initiative has also created a platform for broader, year-round engagement and integration into existing local structures.
