

Preparation of an Integrated Framework Plan for Land Use and Transportation (IFPLUT) for the area of the Dunboyne / Clonee / Pace Corridor

Meath County Council wishes to advise that it has commenced the preparation of an Integrated Framework Plan for Land Use and Transportation (IFPLUT) for the area of the Dunboyne / Clonee / Pace Corridor.

Meath County Council has commissioned specialist consultants to prepare the Framework Plan. The primary objective is to provide a long term strategic vision for integrated land use and transportation development, working towards an environment which is attractive to live and work in; and to develop a land use and transportation strategy for the area to deal with current problems and to identify the necessary measures required to cater for anticipated growth.

It is intended that the IFPLUT will inform reviews of development plans and the preparation of local area plans in the future, guiding future land use development and transportation investment, and formalising the essential links between land use and movement.
