Brief description of the project or plan

The project title is the Enfield Local Area Plan 2009-2015. The objective of the Local Area Plan is to establish a land use framework for the sustainable development of Enfield town in a co-ordinated and coherent manner (Draft Local Area Plan, 2009-2015).

Brief description of the Natura 2000 site

No Natura 2000 site was identified within the boundary of Enfield town.

Assessment criteria

Describe the individual elements of the project (either alone or in combination with other plans or projects) likely to give rise to impacts on the Natura 2000 site.

As no Natura 2000 site exists within the boundary of Enfield town the Local Area Plan will not impact on a protected site.

Describe any likely direct, indirect or secondary impacts of the project (either alone or in combination with other plans or projects) on the Natura 2000 site by virtue of:

- *size and scale;*
- *land-take;*
- *distance from the Natura 2000 site or key features of the site;*
- *resource requirements (water abstraction etc.);*
- *emissions (disposal to land, water or air);*
- *excavation requirements;*
- *transportation requirements;*
- *duration of construction, operation, decommissioning, etc.;*
- *other.*

Not applicable to the Enfield Local Area Plan as no Natura 2000 site was identified within the town boundary. Discharges to watercourses should be in compliance with the Water Framework Directive to prevent deterioration in water quality downstream of the town environs.

Describe any likely changes to the site arising as a result of:

- *reduction of habitat area;*
- *disturbance to key species;*
- *habitat or species fragmentation;*
- *reduction in species density;*
- *changes in key indicators of conservation value (water quality etc.);*
- *climate change*

Not applicable to the Enfield Local Area Plan as no Natura 2000 site was identified within the town boundary.

Describe any likely impacts on the Natura 2000 site as a whole in terms of:

- *interference with the key relationships that define the structure of the site;*
- *interference with key relationships that define the function of the site.*

Not applicable to the Enfield Local Area Plan as no Natura 2000 site was identified within the town boundary.

Provide indicators of significance as a result of the identification of effects set out above in terms of:

- *loss;*
- *fragmentation;*
- *disruption;*
- *disturbance;*
- *change to key elements of the site (e.g. water quality etc.)*

Not applicable to the Enfield Local Area Plan as no Natura 2000 site was identified within the town boundary.

Describe from the above those elements of the project or plan, or combination of elements, where the above impacts are likely to be significant or where the scale or magnitude of impacts is not known.

Not applicable to the Enfield Local Area Plan as no Natura 2000 site was identified within the town boundary.

Finding of no significant effects report matrix

Name of project or plan

Enfield Local Area Plan 2009-2015

Name and location of Natura 2000 site

No Natura 2000 site was identified within the boundary of Enfield town.

Description of the project or plan

The objective of the Local Area Plan is to establish a land use framework for the sustainable development of Enfield town in a co-ordinated and coherent manner.

Is the project or plan directly connected with or necessary to the management of the site (provide details)?

Not applicable to the Enfield Local Area Plan as no Natura 2000 site was identified within the town boundary.

Are there other projects or plans that together with the project or plan being assessed could affect the site (provide details)?

Not applicable to the Enfield Local Area Plan as no Natura 2000 site was identified within the town boundary.

The assessment of significance of effects

Describe how the project or plan (alone or in combination) is likely to affect the Natura 2000 site.

Not applicable to the Enfield Local Area Plan as no Natura 2000 site was identified within the town boundary.

Explain why these effects are not considered significant.

There are no effects to be considered as no Natura 2000 site exists within Enfield town boundary.

List of agencies consulted: provide contact name and telephone or e-mail address.
