

To Whom it Concerns

I am writing this letter of Submission to convey my Support for the Boyne Greenway Mornington to Drogheda Section. I think the greenway would provide a Safe access route for pedestrians to and from Drogheda (as none exists at the moment) and it would encourage people to commute to work without their cars thus possibly reducing traffic in Drogheda. I also think it's a fantastic tourist amenity which would encourage business in the Mornington area and along the route, it could also link up with the greenway in Oldbridge. It will also provide a Safe access for Students whose Schools are along the same route.

Regards
