Hello,

Please find an objection letter to the Boyne Greenway Ref PL17.307652 attached.

A copy of this has also been sent to Meath Co. Council.

Kind regards
[REDACTED]

REF:PL17.307652

27.08.2020

To whom it may concern I would like to formally object to the Boyne Greenway on the grounds of the negative impact I feel it will have on myself and my household that I purchased and own outright with no mortgage.

I live in one of the houses that are directly facing the outside wall that will be knocked and relocated directly in front of my property. Under these proposals I will lose access to the on-street parking in front of my residence and also the green in front of my property.

These two features were key factors when I purchased my house of the plans when  was originally built.

My grandchildren like many other children of the estate will also lose their green where they play on a daily basis. This leaves the only greenway inside the estate being at the back of the estate where I cannot see them at all times. At present I can sit in my garden and watch them play safely again at all times. This was a key factor in my selection of this house in particular to purchase.

On all of the grounds listed above and on the grounds that these proposed works will adversely affect my property value I object profusely to these current plans. The personal cost is far too much to myself personally and my quality of life at the moment. I am retired now and enjoying my retirement years watching my grandchildren grow, play and explore in the residence I specifically choose.

Again, I feel the personal costs and happiness to both myself and the other households front facing the green and road at the moment is far too great.

Kind regards
