

“Boyne Greenway, Drogheda to Mornington, Co Meath and Co Louth”

08/09/20202

An Bord Pleanála  
64 Marlborough St  
Dublin 1  
D01 V902,

To whom it may concern,

I support the construction of a “Greenway” from Drogheda to Mornington.

If this were to go ahead I would walk on it and those who visited my home would also use it.

I believe that this would be an amenity for everybody which would be sustainable and would give access to the riverside to all those who use it.

This greenway connects Drogheda to the seaside and minimizes the amount of contact users would have with motor vehicles; the number of car journeys I suspect would be reduced thus reducing the CO2 emissions.

Our economy is in recession and if Government decide to adopt a Keynesian economic approach investments which yield a high multiplier effect would be welcomed. I believe that this Greenway would generate a high multiplier effect.

Thank you for the opportunity to express an opinion.
