Planning REF. NO. PL17.307652
DROGHEDA - MORNINGTON GREENWAY Proposal.

To Whom it may concern,

I wish to strongly oppose the proposed changes Meath Co. Co. plan to make in my area to accommodate the greenway.

1) Removal of Green Area in [REDACTED]

It is farcical that a proposed Greenway will lead to the destruction of our small greenspace to make way for car spaces. This area is used constantly by the smaller children in the estate as a play space.

2) IMPROVEMENT of Sightlines at [REDACTED] Junction:
Ref. Alignment Sheet 36.

The correction of the poorly designed and Meath Co. Council approved Junction during the construction of [REDACTED] is a ROAD SAFETY ISSUE and the necessary changes should be addressed separately regardless of the Greenway. The inclusion of this as part of the Greenway is to mask poor design in other areas and put a positive spin on the less appealing changes.

3) Design of the Greenway path on R151.

The plan to construct the cycle/walkpath directly alongside the road with NO separation is unsafe and does not reflect the modern design of new cycleways in Dublin with proper separation between cyclist and motorist. There are numerous private driveways that will cross the proposed path when entering and exiting property. I am in favour of a well designed, safe greenway that can be used by local families and visitors, but the proposed design is lacking imagination and most importantly is NOT SAFE.
