Construction of the Boyne Greenway Drogheda to Mornington Co Meath & Co Louth

Dear Sir,

My family and I are residents of [REDACTED] our family home is situated directly on the [REDACTED]

The [REDACTED] is an extremely Busy Route with high levels of traffic and speeding in an ongoing issue, the Proposed Greenway will serve only to increase traffic on the [REDACTED] which is already a danger zone.

Further to the primary issue of safety regarding volume and speed, there is simply not enough width in the road to facilitate Cars, Buses, Tractors and Lorries at present and establishment of the of the Greenway would add to the pre-existing problem.

The Proposed Greenway would be on a Floodplain, the river Boyne regularly swells and the Greenway will not be fit for purpose for a large portion of the year. The Greenway will be damaged and the surface will pose a threat for Slip Fall accidents and the Council be liable for negligence.

The Boyne Estuary has a Special Protection Area for Wild Birds and Conservation will be damaged beyond repair if the Greenway is erected as 50% of the Greenway will stand on these protected lands.

We trust our objection will be noted and we look forward to hearing from you.
