7 Notice of Motion

7.1 Submitted by Councillor Maria Murphy

“We call on the Council to review the practice of creating water cuts which they undertake in the area every year to improve surface water drainage on our rural roads. This work was formerly completed manually by Council staff using manual tools. However in recent years the Council has contracted diggers to create the water cuts. The work undertaken using diggers is excessive and this results in damage to the grass verges. Large tracks are created and the excess soil is then dumped on the bank creating a hazard. I have received complaints from residents living across my area from Warrenstown to Jarretstown to Dolanstown where grass verges are well maintained by landowners and residents.”

7.2 Submitted by Councillor Damien O’Reilly

“That Meath County Council provides a progress report and estimated completion date for the realignment of the Mullagh Cross and, in the meantime, provides the cost of moving the ESB/Eir poles and removing hedges/ trees at the junction.”
