1. INTRODUCTION

Meath County Council’s 2023 Service Delivery Plan is formulated and adopted by the Members of Meath County Council in the context of their overarching vision of making Meath “the lead county for economic prosperity, social development and environmental protection, with efficient and good value services and a Council representing the people and communities of County Meath in an effective and accountable manner”.

The service plan sets out the principal services Meath County Council intends to provide to the public in the period to the end of 2023. Alongside these principal services, the plan sets out the Corporate Plan Supporting Strategies, the service funding, service objectives, performance standards and timelines for the delivery of these services. The associated risks to delivering the principal services are also identified and whether these are already captured by the Council’s risk management process. The service plan is a reference point for the citizens of Meath on the services and performance standards that they can expect from their Council.

2. ORGANISATIONAL PRIORITIES

The Corporate Plan sets out the Vision, Mission, Strategic Objectives and Supporting Strategies of Meath County Council for the period 2019 – 2024. The Annual Service Delivery Plan, guided by those supporting strategies, sets out the principal service objectives and priorities for each individual year. These service objectives then inform the departmental team plans and individual action plans.

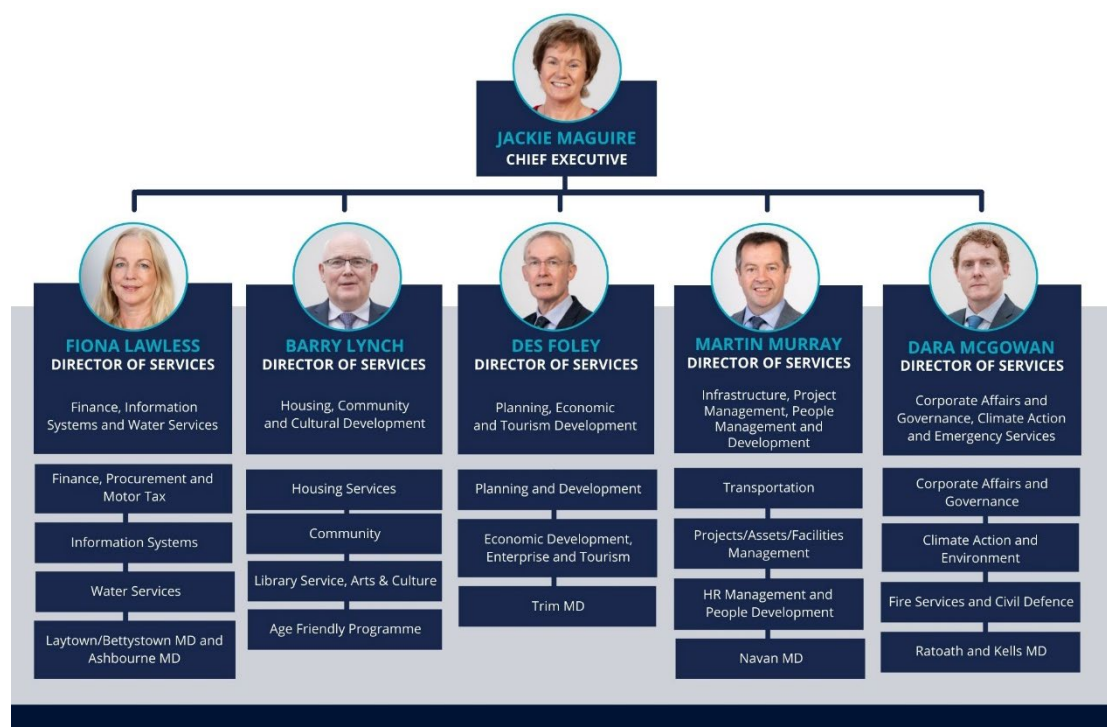

The Strategic Objectives of the Corporate Plan 2019 – 2024 are as follows:

 <p>Deliver Excellent Public Services to our Citizens</p>	<p>Meath County Council will focus on providing essential services to improve the quality of life and well-being of people and the prosperity of businesses in the county.</p>
 <p>Lead Economic Development, Support Enterprise and Employment Creation</p>	<p>Meath County Council will be the lead agency in developing the local economy, with a focus on attracting investment and the creation and retention of jobs in the county.</p>
 <p>Provide a blend of Solutions to the Complex Housing Challenges at Local Level</p>	<p>Meath County Council will support delivery of a range of solutions to meet the various housing needs, including private, social, affordable, right-size and accessible housing.</p>
 <p>Support the Transition to a Low Carbon Economy and Lead on Climate Action</p>	<p>Meath County Council will effect positive change at local level on the national transition objective to a low carbon future and on climate resilience.</p>
 <p>Engage the Wider Community, Increase Participation and work to make Meath an Age Friendly County</p>	<p>Meath County Council will be available to listen, inform and engage with the citizens of Meath. The Council will work to increase community engagement and social inclusion and future-proof what we do to enable the development of sustainable communities.</p>
 <p>Build Strong, Influential Partnerships to Maximise the County's Potential</p>	<p>Meath County Council will build strong influential partnerships with key stakeholders, to protect and enhance the reputation of the Council and support the delivery of its strategic objectives.</p>
 <p>Develop Organisational Capability through Innovation and Staff Excellence</p>	<p>Meath County Council will innovate to seek improvements in how it delivers services, including digital services and nurture a culture to make it an employer of choice in the region, where staff are proud to work in its progressive environment.</p>

These Strategic Objectives and Supporting Strategies, as set out in the Corporate Plan, provide the framework within which services are to be delivered by the Executive of the Council. This Service Delivery Plan sets out how these objectives and strategies will be progressed during 2023.

3. ORGANISATIONAL STRUCTURE

Meath County Council’s services are arranged around a number of main functional departments, with the principal services being provided through the following direct service delivery and supporting service delivery departments:

This service delivery plan sets out the principal services and service delivery objectives as they relate to each of these departments.

4. ORGANISATIONAL RESOURCES

Meath County Council's 2023 Revenue Budget provides for a total expenditure of €186,349,110 in relation to day-to-day services. The Annual Budget is set out based on the main Service Divisions:

EXPENDITURE PER HEAD OF POPULATION (HOP)

Total	843*

* Excludes 72 (retained) Fire-fighters

5. IMPLEMENTATION AND MONITORING

This Service Delivery Plan sets out the principal services the Council proposes to deliver by the end of December 2023 within existing constraints on funding and resources. The plan will be subject to ongoing monitoring by the Management Team and progress will be outlined in the monthly Chief Executive's Report, with a full progress report brought to the full Council at year end.

SERVICE DEPARTMENTS

6. HOUSING

The Housing Department's core remit is the provision of social housing supports to those unable to provide accommodation from their own resources, including the delivery of new social housing units through the various capital delivery programmes, and the administration of the Housing Assistance Payment and the Rental Accommodation Scheme. This is underpinned by a revenue budget of €55,000,000 for 2023.

Homeless services remain a critical function at this time, with prevention being a priority intervention. The budget for the Provision of Homeless Services in 2023 amounts to €5,800,000.

The Department also has responsibility for other related Housing services including the administration of the suite of private adaptation grants, which now commands an annual budget of €2,800,000, the private rented inspections programme, Traveller Accommodation and on-going collaboration with the Approved Housing Body Sector.

Meath County Council has a housing stock of in excess of 3,800 units, with responsive and preventative maintenance programmes in place to manage same. In addition, the Department has a team of Tenant Liaison Officers who provide advice and supports to our tenants.

Corporate Plan Supporting Strategies

The Corporate Plan Supporting Strategies guiding the setting of Principal Service Objectives for the Housing Department are set out below:

Supporting Strategy Ref.	Supporting Strategy	Strategic Objective
HS1	To maximise the delivery of high quality, sustainable social housing units across all delivery mechanisms, in fulfilment of Housing for All – the Government's Housing Policy to 2030, the National Housing Strategy for Disabled People 2022 – 2027 and the National Youth Homelessness Strategy 2023-2025. <i>Note: Rebuilding Ireland was replaced by Housing for All in September 2021. In addition to social housing delivery, local authorities will also be mandated to facilitate the provision of affordable housing in their areas.</i>	1, 3
HS2	To provide appropriate and timely housing solutions to social housing applicants with a disability and to maximise the financial assistance available to private owners in respect of the suite of private adaptation grants.	1, 3, 5
HS3	To further develop the range of homeless services available within the county to those affected by homelessness, in particular those with high support needs and those who experience cyclical homelessness.	1, 3, 5
HS4	To effectively and efficiently manage our housing stock through adherence to our Routine Maintenance Charter and the development of a systematic planned maintenance programme.	1, 3, 4

HS5	To put in place the necessary focus and resources so as to ensure the accommodation needs of Travellers are strategically addressed over the duration of the Traveller Accommodation Programme 2019-2024.	1, 3, 5
HS6	To deliver a robust private rented inspection programme in order to achieve quality private rental accommodation in the county.	1, 3
HS7	To implement recommendations of the Policy Statement on Housing Options for our Ageing Population, recognising the future demographic changes and ageing of the population in the county.	1, 3, 5

10. ECONOMIC DEVELOPMENT AND TOURISM

The Economic Development and Tourism Department promotes local employment, productivity enhancement and export-led growth by working in partnership with local businesses, chambers of commerce, state agencies for enterprise and tourism, community groups and higher education institutes. The Department develops and implements policy initiatives across key areas of investment promotion and facilitation, local economy renewal, tourism product development and marketing, and local enterprise support. Meath's Local Economic and Community Plan was adopted by Elected Members in 2016 and sets the overarching framework for the work of the Department. A further key policy document is the Tourism Strategy. These strategies complement the Local Enterprise Development Plan, which is delivered by the Local Enterprise Office with funding provided by Enterprise Ireland under a Service Level Agreement with Meath County Council (co-financed by the European Regional Development Fund). In addition, the Department oversees the operation of two enterprise centres to support start-ups and emerging businesses.

12. AGE FRIENDLY SHARED SERVICE

Age Friendly Ireland is an appointed shared service of local government hosted by Meath County Council on behalf of the sector. The national Age Friendly Programme office brings together, supports and provides technical guidance to the 31 local authority led, multiagency Age Friendly City and County Programmes nationwide.

The core objective of Age Friendly Ireland is to facilitate local authorities to take the lead on delivering the principles of the World Health Organisation's Age Friendly Global Framework, changing the thinking about ageing and how services are planned and delivered for our ageing population and to support multiagency cooperation in finding new, innovative ways to make our communities better places for growing older.

The Age Friendly Ireland shared service (AFISSO), in Meath County Council, manages the national structures and the 31 local programmes structures across Ireland and is a knowledge transfer base for other countries internationally. In July 2010, the Local Government Efficiency Review published its report which identified 31 shared services opportunities in the local government sector. Ireland is recognised internationally as a front runner and global leader in age friendly programming, becoming the first country in the world to have full affiliation across all administrative areas to the WHO global programme in 2019. At the heart of this success is the role played by the Age Friendly Ireland Shared Service Office (AFISSO) based in Meath County Council.

The Public Service Reform Oversight Group (PSROG) was established in 2012 by the CCMA to directly oversee the reform agenda for the sector and in 2015 the PSROG was integrated into the structures of the LGMA as a Committee of the LGMA Board. The CCMA adopted a detailed methodology for developing shared services including the development of a PID (Project Initiation Document), Business Case, Peer Review and a process for bidding to take on the role of lead authority for the service. These processes and templates were reviewed and updated part of the relaunch of the LGMA PMO in 2021.

Each of the 31 shared services identified in the 2010 LGER report were investigated and most of them led to the development of a Business Case and a Peer Review of the Business Case. Further shared services have also been approved by the Public Sector Reform Oversight Group between 2012 and 2021. The governance of the shared services is primarily through programme/project boards reporting to either CCMA or LGMA Committees, including the Public Service Reform Oversight Group (PSROG), which ultimately reports to the LGMA Board.

There are 39 shared services with a cost to the local government sector of over €22m per annum. 20 of the shared services are managed by the LGMA and the remaining 19 shared services are being managed by approved single lead authority or regional structures, involving 17 local authorities.

Since 2017 Age Friendly Ireland has operated as a shared service function hosted by Meath County Council. The shared service operates the national Age Friendly Programme which is

now fully affiliated to the World Health Organisation's global programme. Since 2017 there has been no direct charge back to the 31 local authorities and core funding to operate the service is provided in the main by 3 National Advisory Group members namely the Department of Housing Planning and Local Government, Department of Health and the HSE. In 2023 this will extend to include the Department of Rural & Community Development to the tune of €100,000.

The programme of work led by the AFISSO spans the eight domains of the WHO global programme. It works through a team-based framework of 31 local programmes, hosted by each local authority, as well as having deep cross sectoral engagement with multisectoral partners including Government Departments, the HSE and a range of public services, NGO's, state agencies, private sector, tertiary education, and other public sector bodies. The AFISSO also engages extensively with private sector bodies including national representative bodies as diverse as the Construction Industry Federation, the GAA, Chambers Ireland, and Engineers Ireland, among others.

The shared service's work is very focused on the creation of Age Friendly Towns and Communities, and the health and wellbeing of older people as they age. The programme structure, as a shared service, enables the implementation and roll out of thousands of initiatives, across Ireland, that enable older people to remain living in their own homes and communities, encouraging participation and physical activity as well as enabling them to engage actively with health and social services and promoting health and longevity. In that context, of particular note, the 2020 Programme for Government highlights ageing of Irish society as one of the most significant societal developments the Country will have to encounter in the coming decades.

Under most recent Central Statistics Office population projections, trends indicate that the number of people over the age of 65 is expected to reach up to 1.6 million by 2051, more than double the population in 2016. It is increasingly envisaged across public policy that people will be older, more active, better educated and actively seeking to be fully engaged with their lives and that of their families. The implications for public policy areas as diverse as housing, health, urban and rural planning, transport, policing, and the business environment are, as a result, considerable.

In establishing the AFISSO, the Local Government System in Ireland set in train a programme (pre the 2020 Programme for Government Objectives/commitments) to meet the following overarching strategic objectives:

1. To strengthen and embed Age Friendly Local Programmes by supporting each Age Friendly City and County Programme in moving through strategy development to advanced implementation
2. To scale up and replicate best practice through the optimisation of programme quality and impact by supporting wide-scale application of innovative, effective, and sustainable age-friendly practices

3. To support national policy by informing and influencing policy and service development at both national and local level and by identifying the current national issues and escalating them to the National Advisory Group of Age Friendly Ireland for action, and

Through providing the means to measure actions, monitor action delivery and provide shared learning across local government and the wider public service. In doing so putting local government at the core of delivery of reconfigured public services to meet the needs of the Country's Ageing Population. This involves the use of much enhanced data gathering skills, monitoring, and recording along with utilising a developing framework to record metrics and outcomes and demonstrating more effective communication learnings

4. ENVIRONMENT

Local authorities play a significant role in the enforcement of environmental legislation nationally. Staff in Local Authorities enforce over 500 environmental protection obligations arising from more than 100 pieces of legislation. This includes compliance with waste management, water quality and Air Quality /Noise legislation. The environment department also have responsibilities relating to the provision and management of burial grounds, flood relief schemes, control of dogs and horses, casual trading and coastal protection.

The Council through its Environmental Awareness Officer develops and implements environmental awareness programmes across many of these functions and is particularly active in the Schools as well as the community and commercial sectors to promote sound environmental practices.

Meath County Council like all local authorities are recognised as key drivers to advance the implementation of national climate policy and have significant roles in the delivery of both climate mitigation and adaptation. The government in December 2023 launched the Climate Action Plan 2023, setting out how Ireland will accelerate the action required to respond to the climate crisis, putting climate solutions at the centre of Ireland’s social and economic development.

The Climate Action and Low Carbon Development (Amendment) Act 2021 requires each Local Authority to prepare a Local Authority Climate Action Plan specifying the adaptation and mitigation measures to be adopted by the Local Authority and such a requirement is reinforced in the national Climate Action Plan 2023 and with the Local Authority plans to be submitted to the Department of the Environment , Climate and Communications no later than March 2024.
