MEATH LOCAL COMMUNITY SAFETY PARTNERSHIP

PROPERTY MARKING SCHEME

The Telesis dot pen machine works by stamping your Eircode into the item to be marked using a pattern of dots. It can run off mains supply or batteries, so can be taken out around farm yards to mark trailers etc.

The machine is available free of charge to groups who wish to organise events and have been trained in using the Telesis Dot pen machine.

Protecting Our Community

- Sports clubs might consider holding special property marking days for club members with expensive equipment, such as carbon fibre bikes, riding tack or fishing rods. In fact, this machine can mark anything from an iPhone to an Ifor Williams!
- Schools might have expensive equipment belonging to the school marked, and might invite students to bring in devices such as tablets to be marked
- Businesses might have power tools, generators, and other portable equipment usually transported in vans marked

Is your Club or Group Interested?

To organise a property marking event in your area, or for your club, contact the **Community Department** on the details below.
