

How to have a safe and spooky Halloween

- Keep pets indoors on Halloween night – they are sensitive to noise.
- Costumes can be flammable—be extra careful around candles or lanterns
- Fireworks look great but are only safe if used properly—Only adults should handle and light fireworks
- Sparklers should be held at arms length and be careful when they go out they are still hot
- Stay well away from bonfires—they are illegal, dangerous and cause damage to the environment

More safety Tips

- Never go trick or treating alone or split up from your friends
- Always check with your parents or carer first
- Only go to houses where you or your friends know who lives there
- Don't go into any house - stay on the doorstep
- Don't talk to strangers on the street
- Stay in well-lit areas & carry a torch or glowstick
- Take care crossing roads - it may be hard to see the road properly in a costume
- Although Halloween is about looking spooky, be careful not to frighten the elderly and respect your neighbours

Have fun, stay safe and respect your neighbourhood
